

METZGER
ANIMAL HOSPITAL LLC

Extraordinary Care Comes From The Heart

“As has been said many times before: The strength of our practice is in the team environment we have created. For the past two years, Dr. Couto has been a leader in the training of our staff. Our professionals have fine-tuned their skills regarding sighthounds and their specific issues, and through the latest in tele-medical consulting, Dr. Couto is able to be with us 24/7. This sets our practice apart from all others and we stand ready to help you when you need it most.

Metzger Animal Hospital is a veterinary referral hospital, and as such, we treat pets from around our region and beyond. We operate using five guiding principles:

- (1) Enhance people's lives by helping their pets
- (2) Embrace technology and help to advance veterinary medicine
- (3) Exceed our customer's expectations
- (4) Empower and reward our employees
- (5) Contribute to our communities

We take these principles seriously and because we do, we have been able to expand our services to include chiropractic, orthopedic, pathologic, and internal specialties. We have a team of veterinary specialists and we want to be your veterinary hospital.”

**Fred Metzger,
DVM, MRCVS,
Diplomate ABVP**

**C. Guillermo Couto,
DVM, Diplomate ACVIM
(internal medicine and
oncology)**
